Currently pursuing Masters degree in Computer Science.

BSc in Computer Science, *Jagiellonian University*, Krakow, Poland.   **2014–2017**
Thesis Electronic book reader for iOS *Abstract* The purpose of this thesis is to present the EPUBKit library. The goal of the library is to handle EPUB documents and give the possibility of displaying them on an iOS device. EPUBKit is written using swift language and available exclusively for iOS platform. Starting off with the description of used tools and technologies, I will move onto covering the EPUB standard in greater depth. Afterwards, deep analysis of my library will follow. Thesis ends with the description of iOS applications creation process with special emphasis on the EPUBKit and how it fits in this landscape.

Work Experience

iOS Developer, *Prismake*, Krakow, Poland.   **2017.10–Present**
